Meet Our Artisans: One Mango Tree- Gulu, Uganda

Northern Uganda is a region devastated by more than twenty years of armed conflict. Despite the fact that most of the conflict has subsided and many people are returning to their villages and otherwise peaceful lives, the ongoing violence destroyed many of the opportunities for earning a livelihood, especially for women. Many of the women employed not only care for their own families, but also for children orphaned during the war. In addition to providing a vocation to these women, One Mango Tree provides school fees stipends to help alleviate the cost burden of sending so many orphaned children to school, as well as bicycles to ease the commute to work in the market.
